

2025 CPT Code Profile Tool

ECG's CPT Code Profile Tool is the industry's most rigorous and accurate CPT code benchmarking resource for provider compensation planning.

ECG's CPT Code Profile Tool provides access to CPT code data for 42,000 providers practicing in 160 physician specialties and 11 types of APPs.

The profiler enables users to generate reports that allow for a better understanding of the impact of physician and APP CPT coding on practice economics, in addition to helping identify where changes and improvements may be warranted.

Our CPT Code Profile Tool:

- Aids in the analysis of individual providers' procedure codes and encounter type distribution, including new and established patient visits and consultations.
- Compares individual coding profiles and performance to the overall market.

The CPT Code Profile Tool is built from ECG's proprietary physician and APP compensation surveys, wherein we calculate productivity from CPT code-level data from all payers.

The tool uses clear, uniformly applied definitions and a structured data validation process to transform member responses into useful information. RVU metrics for our surveys are calculated and published using the Medicare Physician Fee Schedule. To ensure data accuracy, we define each provider's clinical and nonclinical full-time equivalents in detail. ▶

KEY FEATURES

- Data collected for CY or FY 2024
- Benchmarks available at no charge to all who submit data
- Streamlined data collection templates
- Survey submissions accepted until March 7, 2025
- Key benchmarks available in July 2025

CPT CODE PROFILE TOOL BENEFITS

With a subscription to ECG's CPT Code Profile Tool, your organization receives access to powerful CPT code profiling reports and online benchmarking tools that can be customized, including the following: ▶

ECGVault (www.ecgvault.com)

Access robust organization, market, and provider CPT performance trends by specialty through ECG's online portal.

- Build standard and custom reports for your providers and the market.
- Download benchmark materials (e.g., graphs, tables).

Provider CPT Code Frequency Reports

Gain an understanding of the top CPT codes at the specialty, provider, and market levels with data sets customized by:

- Procedure categories and subcategories.
- Type of service, inpatient and outpatient procedures, and medical group demographic subcategories.
- Key practice differentiators.

Provider E&M Distribution Reports by Specialty

- Access reports for office, inpatient, and emergency department visits.
- Distribution reports include the isolation of E&M frequency by place of service and provider and organization demographics.

Specialty Practice Profile Summary Reports

Identify variances in practice profiles for providers in the medical group and the market with key metrics, including:

- Work RVUs (WRVUs).
- Total RVUs (TRVUs).
- Distribution of volumes, WRVUs, and TRVUs by procedure category and subcategories.
- Average acuity of procedure.

The Courage to Change Healthcare.™

Since its founding, ECG has kept pace with an ever-evolving industry, steadfast in its commitment to and passion for healthcare. Together with our clients, we're making healthcare more accessible, sustainable, and effective for the patients and communities they support.
